

# TROJAN PROFESSIONAL COMMERCIAL HYBRID PLANKS

## TROJAN PROFESSIONAL HYBRID FLOORING

Trojan PROFESSIONAL commercial Hybrid planks are an innovative flooring solution. Hybrid is an SPC (Stone Plastic Composite) flooring that is merged with a decorative realistic film, which is then protected with a hard wearing ceramic coating for ultimate performance. Combining the best available technology with cutting edge design, to form a great flooring alternative.

The real advantages of this product are obvious in its rigid construction, stable core and attached acoustic underlay backing. Hybrid flooring is easy to clean and maintain, and for peace of mind comes with a 20 year wear-and-tear warranty and lifetime structural warranty. See Warranty Conditions for more information.

### CONSTRUCTION
