

European Oak Grading Options

PRIMA GRADE:

Our Prima grade represents the pinnacle of our oak selection, offering an exceptionally refined appearance with minimal knots for a cleaner premium look. The natural hue of the oak is remarkably uniform across the planks, showcasing a consistent, elegant tone with no prominent character markings or colour variations. Due to the unparalleled clarity and quality of this grade, the raw material is highly limited in availability.

NATURE GRADE:

Our Nature grade oak showcases a beautifully balanced character with occasional markings, including filled, grouped, and sound knots. Subtle variations in colour between planks add depth and charm, creating a truly stunning aesthetic for any floor.

RUSTIC GRADE:

Our Rustic oak is a perennial favourite, celebrated for its rich character and distinctive features. Each plank showcases unique wood markings, including sapwood and knots, as well as occasional faux end cracks, enhancing its natural appeal. Striking colour contrasts between planks add depth and warmth, making the Rustic grade floor a captivating choice.

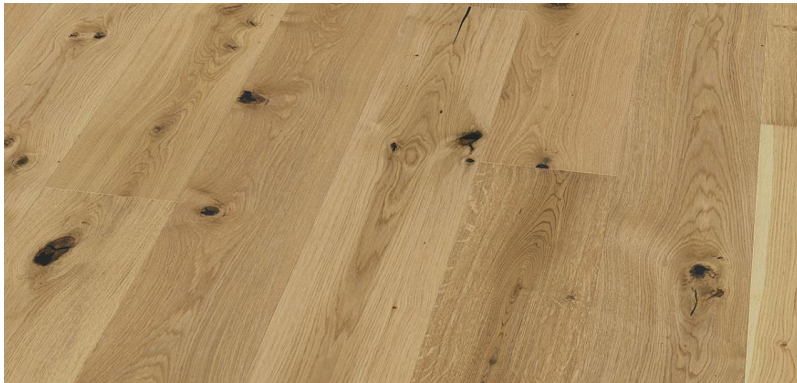

SIGNATURE GRADE:

The Signature grade is a thoughtfully curated selection of extra-wide planks, ranging from 290mm to 400mm, designed to showcase the distinctive natural beauty of European Oak. These planks are carefully chosen to highlight the wood's inherent charm, featuring surface knots, heart knots, grouped knots, and sound knots. A limited presence of edge knots, end cracks, and some sapwood further adds to their character.

The Signature grade celebrates the timeless appeal of European Oak in its most natural form and design, emphasizing its unique colour variations enriched by tannins and mineral streaks in the heartwood. This grade offers a stunning and authentic flooring solution, perfect for creating a warm and visually captivating ambiance in both residential and commercial spaces.

ANTIQUE GRADE:

Our Antique Collection captures the timeless beauty of oak with its rich character and charm. Each plank showcases a variety of natural features, including heart knots, surface knots, end cracks, and sapwood, adding depth and authenticity. The inherent colour contrasts, influenced by the wood's tannins, further enhance its unique appeal. Paired with bespoke surface treatments, the Antique Collection delivers flooring with a truly aged and authentic aesthetic, perfect for creating a warm, vintage inspired ambiance.

LIFESTYLE GRADE:

Our Lifestyle grading features in some of our most popular ranges, celebrated for their diverse and reactive colour options. Like the Antique grading, this selection also includes edge knots, enhancing its natural charm. Each plank beautifully captures the artistic essence of the tree's unique characteristics, making these collections a top choice for those seeking distinctive and visually stunning flooring solutions.
